# PLANTING FOR PLEASURE OR PROFIT

Excellence compels its own reward. Inferiority begs unheeded. In all things the world seeks merit—and gladly pays its price. The markets of the earth are never glutted with the good and the worthy—whether wares of factories, objects of art or fruits of vine and tree. The golden wine of Champagne, the fragrant tobacco of Cuban furrows, Kentucky's blooded horses, the aromatic spices of India or Ceylon tea of ancient lineage—alike command their own prices in all the ports of the seven seas.

Their dominance is of excellence—and their excellence is of breed.

Even so, in fruit or flower, vine or tree, the price you receive for your harvest, or the pleasure and satisfaction you derive from it, will measure greater or less—according to the quality of your planting.

To grow excellence—plant excellence.

This first and ancient rule of husband was hoary with antiquity when the pyramids were reared in the olden valley of the Nile. Today, as then, strength comes only from the strong.

### SPECIAL

Packing FREE. Certificate of inspection with each order.

Terms-Cash or one-fourth cash, balance C. O. D.

Additional—Add 25 per cent if to be planted by us and replaced next year free.

We are incorporated under the Kentucky laws and refer you to any bank or commercial agency in Louisville.

California Privet

# **HEDGE PLANTS**

PRIVET, California—The finest all purpose hedge. The most most popular and most beautiful hedge grown. A pretty shrub with smooth, shining leaves, of unusual beauty. For the ornamental hedge there are many plants that may be used with happy results, but the great demand for California Privet proves it to be the most popular and satisfactory of the hedges. 1 year old plants, 12 to 18 inches, \$6.00 per 100; \$50.00 per 1,000; 2 year old plants, 18 to 24 inches, \$8.00 per 100, \$70.00 per 1,000; 2-3 ft., \$10.00 per 100.

PRIVET, Amoor River-Hardy for northern climates. It is of similar form and habit to the well known California type; the foliage is not quite so glossy. 1 year old plants, \$10.00; 2 year old plants, \$12.00 per 100.

# **KENTUCKY NURSERY COMPANY**

The beauty of grounds that are planted with taste and given proper care appeal to most people, yet many fail to discover that they can make their home equally beautiful. They have perhaps tried planting a few shrubs or roses in a thick turf and without giving attention to either cultivation or pruning, have wondered at their lack of success. Beautiful surroundings need not appeal to our taste for the beautiful only, but from a commercial standpoint, beautifying the home greatly adds to its value. Let your slogan be "Plant More Trees This Year."

CATALPA BUNGEII—A remarkable species forming MAPLE, Schwedleri a dense, round, umbrella-like head, makes an umbrella-shaped top without pruning. Perfectly hardy and flourishes in almost all soils and climates. 6 to way Maple's State \$2.50.

and flourishes in almost all soils and climates. 6 to 8 feet. \$2.50.

CATALPA SPECIOSA—One of the most rapid growers. Valuable for timber, fence posts, rairoad ties, etc., possessing wonderful durability. 6 to 8 feet, 75c; 8 to 10 feet, \$1.00.

ELM, AMERICAN WHITE—Magnificent tree growing 80 to 100 feet tall with drooping, spreading branches; one of the grandest of our native trees. 8 to 10 feet, \$1.00; 10 to 12 feet, \$1.50.

CHESTNUT, HORSE—Handsome tree with showy foliage and covered in the spring with panicles of white flowers marked with red. As a lawn or street tree it has no superior. 6 to 8 feet, \$1.50; 10 to 12 feet, \$2.00.

LINDEN, American or Basswood—Grows fast, forming a large, upright, spreading tree; leaves are large and cordate, flower-like yellow, delightful citron odor. 8 to 10 feet, \$1.50.

MAPLE, Norway—Native of Europe. Large, handsome tree, with broad, deep green, shining foliage. Very desirable for street, park or lawn. The Norway Maple characteristically makes the roundest head. 8 to 10 feet, \$1.50; 10 to 12 feet, \$2.00; 2 to 2½ inch caliper, \$3.00.

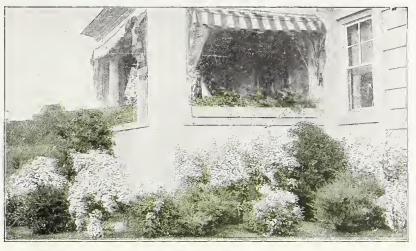

—The Purple Norway Maple's leaves attract attention at all seasons, but are especially fine in the spring, when their gleaming red and purple contrasts wight with the

gleaming red and purple contrasts brightly with the delicate green of other trees. 8 to 10 feet, \$3.00; 10 to 12 feet \$4.00.

MAPLE, Soft or Silver Leaved—Rapid growing tree, large size, irregular, rounded form; foliage bright green above and silver beneath. 8 to 10 feet, \$1.00; 10 to 12 feet. \$1.50.

OUNTAIN ASH—Hardy tree. Head dense and regular; beautiful, fern-like, green foliage; covered from July till winter with clusters of bright red berries. 8 to 10 ft., \$1.50. MOUNTAIN ASH-

OAK, Red—A large tree. Unusually large in leaf and quick in growth. The young shoots and leaf stems are red, the foliage purplish crimson in autumn. A beautiful object on the lawn. 8 to 10 feet, \$2.50.

Spirea Van Houttei and Barberry Planting, \$5.00 per dozen

POPULAR, Carolina—Pyramidal in form and vigorous in growth. Leaves large, glossy, pale to deep green. 6 to 8 feet, 50c; 8 to 10 feet, 75c; 10 to 12 feet,

POPLAR, Lombardy—Remarkable for its picturesque, tall, spiral-like form. Useful in landscape effect and forms striking lawn groups. 6 to 8 feet, 50c; 8 to 10 feet, 75c; 10 to 12 feet, \$1.00.

TULIP TREE—One of the grandest of our native trees. Of tall, pyramidal habit, with broad, glossy, fiddle-shaped leaves. 6 to 8 feet, \$1.00; 8 to 10

### **NUT TREES**

Every farm contains some land that should be planted to nut trees. Nut trees are very ornamental as well as valuable for their crops of nuts. The lumber obtained from these stately trees is in great demand and as a result the prices always head the market.

CHESTNUT, American Sweet—Valuable native tree, useful and ornamental. Timber very durable and fine grain. Nuts are sweet, of delicate flavor. 6 to 8 feet, \$1.50 each.

FILBERT (Hazelnut)—Easiest of culture, growing 6 to 8 feet, hardy; profitable and satisfactory nuts to grow, succeeding in all kinds of soil, bearing early and abundantly. Nuts nearly round, rich and of excellent flavor. 2 to 3 feet, 75c each.

HICKORY, Shellbark—White and shell thinner than any other. Also valuable for its timber. 2 to 3 feet, \$1.50

PECAN—The tree is of tall growth and bears abundantly. Shell very thin, kernel sweet and delicious. 2 to 3 feet. \$1.50 each.

WALNUT, English—A fine, lofty growing tree, with hand-some, spreading head. Produces large crops of thin shell, delicious nuts. 3 to 4 feet, \$1.50 each.

WALNUT, White (Butternut)—A fine native tree, producing a large longish nut prized for its sweet, oily, nutritious kernel. 3 to 4 feet, \$1.00 each.

Catalpa Bungeii

### **WEEPING TREES**

WEEPING TREES

Much attention is now given to this class of trees and we place them separately for the convenience of our patrons. The superior grace and beauty of the weeping varieties render them especially adapted to the yard, lawn or cemetery. No collection is complete without them. Among ornamentals they have no superior.

BIRCH, Cut-leaf Weeping—Undoubtedly one of the most popular of all weeping or pendulous trees. Tall and slender, graceful, drooping branches, silvery-white bark, delicately cut foliage; it makes attractive specimen. Vigorous. 4 to 5 feet, \$2.50: 5 to 6 feet, \$3.50.

CATALPA BUNGEI—(See ornamental and decidous shrubs). ELM, Camperdown Weeping—Its vigorous, irregular branches which have a uniform weeping habit, overlap so regularly that a compact roof-like head is formed. Leaves large, glossy, dark green. Strong, vigorous grower. Finest weeping elm and one of the best of weeping trees. 6 to 8 feet, \$2.50 each.

MULBERRY, Tea's Weeping Russian—One of the finest and most graceful weeping trees, forming an umbrella-shaped head with slender, willowy branches, drooping to the ground. Foliage is beautiful, leaves distinctly lobed. Tree perfectly hardy, enduring the severe cold of the North and extreme heat of the South. Very desirable. More planted than all other weeping trees combined. 6 to 8 feet. \$2.50 each.

WILLOW, Babylonica—A well known and most graceful tree of large size. Its fresh, bright green tint and long, wavy branches make it very attractive for planting by streams and ponds. 8 to 10 feet, \$2.50 each.

### SOME POPULAR SPECIMENS OF OUR ROSE FAMILY HARDY HYBRID-NOT EVERBLOOMING

\$1.00 each, \$9.00 per dozen.

\$1.00 each, \$9.00 per dozen.

# A Greater Part of Your Life Is Spent at Home. Why Not Make It Beautiful?

For all around the year satisfaction, Evergreens fill the bill. Their many varied types sound a pleasant note of contrast when planted among deciduous neighbors. Their amazing colors and changing shapes throughout the year are never ending sources of joy and pleasure. From the very day they are planted they are most decorative and useful. Time only intensifies their beauty and piles up their usefulness with compound interest.

Planted as screens or hedges they fill their office admirably three hundred and sixty-five

days in the year.

For shutting out objectionable features very pretty group effects can be produced that focus the at-

Stay, stay at home, my heart, and rest:
Home-keeping hearts are happiest,
For those that wander they know not where
Are full of trouble and full of care;
To stay at home is best.
Weary and homesick and distressed,
They wander east, they wander west,
And are baffled and beaten and blown about
By the winds of the wilderness of doubt;
To stay at home is best.'—Longfellow.

tention and create a definite interest; a bit of landscape is produced and the objectionable features are completely lost sight of.

In foundation plantings they add beauty\_and In foundation plantings they add beauty and distinct charm throughout the entire year. During the summer season their many delightful tints of green, blues and yellows create wonderful daily changing effects which dim if not altogether obscure all other plantings. In winter there is a grandeur about an Evergreen planting that is supposed to the state of that is supreme. On bleak, dark days they lend their touch of color and brighten the entire home.
